Don't Pay Michael Hyatt \$194 for Your Best Year Ever

Do you want this year to be your best year ever?

Who wouldn't? Who actually started out this year saying, "You know, 2009 was as good as it gets. I really can't beat that."

No one. We all want this year to be our best ever. And for next year to be better.

You may have seen Michael Hyatt's course, [*5 Days to Your Best Year Ever*](#). He sells it for \$194. But I'm here to tell you that *you don't have to spend \$194 to have your best year ever.*

Everything is at stake

Michael said something recently that convinced me to give it a try:

Everything is at stake by not seeking transformation now.

Everything.

And he's right.

If you waste one day, that might be the day that changes your life. One missed opportunity might set you back a week, a month, or even a year towards achieving your goals. It's time to do something different. It's time to invest in your best year ever.

Taking the leap

So I decided to take Michael's course. Like you, I want this to be my best year ever and I knew I needed help.

I could have written this six minutes into the first video to tell you that it's worth twice the asking price. But I decided to keep going, of course.

What I found is that I am not atypical. I thought I was the only one not living up to all of my dreams. Have you ever felt like that?

Good intentions

We all set goals with good intentions. That's the easy part. We all really do *want* to make more money, be healthier, pay off the house, and take that dream vacation. And we want to do it *this* year.

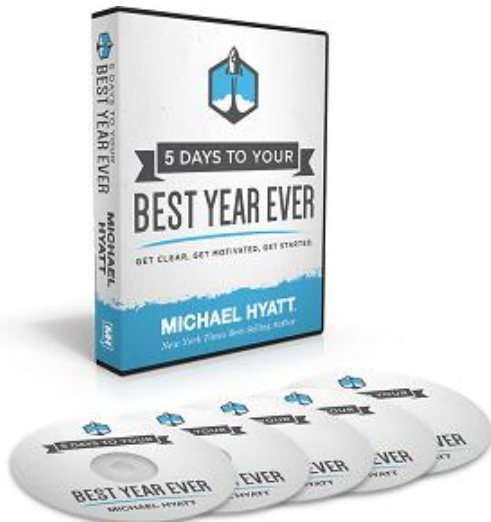

But it's so easy to get off track as days turn into weeks and weeks turn into months...and then the stores are playing Christmas music as we look back on the year with regrets. We get lost in the day-to-day and lose focus. We lose sight of our goals. And maybe, we give up on all goals as a result. I know because I've done just that before.

So let me ask you this question:

What would your life look like if you achieved your goals this year?

What would that make possible?

Do you want to start that new company? Run that first race? Write that first book? Pay off those debts? Be a better parent or spouse? Make a new friend?

Whatever you do, don't pay full price for this incredible course. [Save 25% here.](#)

And how would it really feel to accomplish those goals? To look back on the year on December 31 and say:

I did it!

Take a minute to imagine what that looks like.

That's what Michael's course *will* help you do.

Not *might* help you do. It will. He guarantees it. Literally, with a **90-day money-back guarantee.**

I want this to be your best year ever. And I know this course will help you.
